

Morning News Summary

Dow Jones Nearly In The Black In 2010

US stocks rose last week, with the Dow Jones Industrial Average nearly surging into the black for the year following better than estimated earnings from companies like United Parcel Service, Apple and Ford Motor, which lifted confidence across the market that the economy is recovering.

UPS, Apple and Ford all surged over +4.0% for the week after beating analyst estimates, while Genzyme leapt +21.0%, the largest gain in the S&P 500, on speculation that Sanofi-Aventis had approached the drugmaker about a takeover.

The Standard & Poor's Index gained +3.6% last week, gaining +7.0% since June in its first monthly gain since April, while the Dow Jones Industrial Average has now cut its 2010 decline to less than -0.1% with last week's +3.2% advance.

Takeover Offers Pare Friday Losses

Stocks across the United Kingdom were relatively flat on Friday, with the FTSE 100 Index closing down less than -0.1% due to analyst downgrades on Standard Chartered (-1.0%) and Kingfisher (-2.3%). Losses were offset by a rally in mining companies as Anglo American rose +1.2% after copper climbed, and ARM Holdings led advancing shares on the FTSE 100 after signing a licensing agreement with Microsoft. The FTSE 100 Index posted a third straight weekly advance, with the flat Friday close seeing it up +3.0% for the week, while the ISEQ fell -0.7%

The Stoxx Europe 600 Index closed up +3.2% for the week, as positive earnings reports from Fiat and Apple on Friday reaffirmed to investors that the global economic recovery is intact amid signs the region is weathering the sovereign debt crisis. Fiat led carmakers higher with its first profit in three quarters, while Rio Tinto led the basic resource sector to the best performance among the 19 industry groups. SSL International soared +33.0% after Reckitt Benckiser agreed to buy it for 2.54bn pounds.

Asian, Nikkei Gain

Asian stocks rose, the MSCI Asia Pacific rising the most in two weeks, up +1.7% after Microsoft reported earnings in excess of expectations, and as commodity prices gained. Hon Hai Precision Industry, advanced +5.0%, and Komatsu climbed +4.3% on speculation of a very positive earnings report.

The Nikkei 225 gained for the first time in 6 days following positive US earnings reports, and as the yen weakened and commodity prices gained. Canon rose +3.5% after the euro strengthened, and Mitsubishi, Japan's biggest commodities trader surged +3.8% alongside Inpex (+4.3%).

ASX Advances

The ASX 200 surged +1.9%, as Woodside Petroleum gained +2.2% alongside an advance among banks led by Bendigo and Adelaide Bank (+2.5%).

Gold, Crude Fall

Gold advanced -0.5% to \$1,189.20, while crude declined -0.4% to \$78.73.

NZ Headlines

Auckland International Airport is benefiting from a rebound in passengers from Asia, as total international passengers climbed 5.5% to 553,769 in June from a year earlier. Arrivals from Japan more than doubled, soaring 115% to 4,957, while visitors from China jumped 105% to 5,221.

Contact Energy which is installing SAP software to replace its ageing finance, asset management and retail systems announced it could cost more than \$105m. The company has confirmed it has outsourced 60 jobs to supplier Indian IT firm Wipro.

Rakon expects to ship a record 6.5m units from its Auckland factory this month. The company supplies crystal oscillators to the GPS, telecommunications network and aerospace markets.
