The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [www.sorted.org.nz/tools/investor-kickstarter](http://www.sorted.org.nz/tools/investor-kickstarter).

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five years to 30 September 2021. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

## Notes

<sup>1</sup> This fund came into existence on 11 December 2020. We've calculated the risk indicator using market index returns data for periods before that date, and actual fund returns data afterwards. Using market index returns data may make the risk indicator a less reliable indicator of how much fund values might go up and down in future.

<sup>2</sup> The fund was launched on 11 December 2020 and has not yet been in existence for a 12 month period.

<sup>3</sup> Excluding GST. The fund has not yet been in existence for a 12 month period, and so these charges are our best estimates based on the charges that we expect will be charged to the fund. See the PDS and the 'Other Material information' document on the offer register for the scheme at [www.business.govt.nz/disclose](http://www.business.govt.nz/disclose) for more information.

<sup>4</sup> The fund has not been in existence for a full scheme year. Fees are based on our best estimate using reasonable assumptions of the total fund charges that will be paid by a unit holder in a year.

<sup>5</sup> As the fund has not been in existence for a full year, this calculation is based on the market index return for the period. The market index return does not account for fund charges and tax.

<sup>6</sup> These personnel are employees of Forsyth Barr Limited, which carries out investment management and daily administration of the Forsyth Barr Investment Funds (and is an authorised body under our licence as a manager of registered schemes).
