Infratil (IFT) remains a Fast Follower, rising to 15th place from 20th, with its C&ESG rating improving from B+ to A-, driven by stronger Social and Governance scores. IFT's largest asset is data centre operator CDC, and while some data centres around the world are attracting negative headlines with high water usage, all of CDC's data centres utilise closed-loop water cooling systems, which means they have negligible continued water needs. These systems are now becoming industry standard. Given IFT's structure as an investment company without direct operations or staff, responses to assessments draw variably from IFT, Morrison (its manager), or portfolio companies, depending on context.
